

COURSE REQUIREMENTS

1. Prerequisites: Junior or Senior class standing (minimum of 60 credits successfully completed); successful completion of PSC 101
2. On-site work at the place of your internship at the rate of 60 hours for each academic credit to be earned. (Example: Sign up for 3 credits during a 15 week semester and work 12 hours per week.)
3. Keep a daily or weekly log of your work experience: activities, tasks, skills applied / learned, etc.
4. During the term, use this same log to write two brief reports summarizing your internship experience to date. Specific deadlines for the submission of these papers will be provided by Dr Parker.
5. Read one book related to your internship and write a (5 page) report on it.
 - a. Within 10 days of the start of the internship send Dr Parker information on three books that interest you: title, author and a one-paragraph abstract of each book's content. He will approve or disapprove your selections thus providing you with certainty as to whether your book choice(s) will qualify as fulfilling this segment of the internship.
 - b. The 5-page book report will be due approximately one week prior to the end of the term.
6. A ten-page report summarizing and evaluating the overall internship experience itself. Once again, your log will be your main source of data. This paper will also be due approximately one week prior to the end of the term.
7. A letter of evaluation from your on-site, internship supervisor. This letter will also be due approximately one week prior to the end of the term.
8. Tuition: The internship (PSC 490) is a regular UNLV class that will appear on your transcript. As such, you will pay tuition for it just like any other class.
